Church Group Plans City-Wide Campaign Here

Members of the Albany Community Methodist Church have set as their goal a call at every house in the City of Albany during the first two weeks in October. Something new in calling campaigns is about to be tried as an experiment.

Starting this Sunday, Oct. 6, callers will divide up the city into square blocks, and stop at each house to leave a friendly personal invitation from the church. The object of this "Saturation Calling" Campaign as it has been nicknamed, according to the Rev. Douglas H. Henderson, pastor of the church, "is not to get pledges, commitments, or members, but to demonstrate the concern of the church for those who are unchurched in the community." No attempt is to be made to win people away from other churches.

Through this city wide calling it is hoped that many who have no church home will be contacted and invited to participate. This is one of many special activities being carried on by the Albany Community Methodist Church in celebration of its 50th Anniversary year. Over 50 people will participate in this calling campaign.

The campaign will open with the observance of World Communion Sunday, October 6, at the 9:45 and 11 a.m. services, when Rev. Douglas H. Henderson will speak on the question, "How Big Is Your World."

Bay Air Pollution Issues Regulations On Open Burning

Local Fire Departments are the key cooperating agencies in enforcing Regulation Number 1, which bans open burning and is the first regulation established by the Bay Area Air Pollution Control District. This regulation became effective Tuesday, October 1, throughout the six counties, Alameda, Contra Costa, Marin, San Francisco, San Mateo and Santa Clara. Fire Departments and Fire Districts of the individual counties and cities have assured Control Officer Benjamin Linsky that they will extend full cooperation to the District in observance of the regulation.

Linsky emphasized, "The local fire services should continue to be the first contact for the general public on open burning of materials, since the local Fire Departments are the agencies which issue burning permits and enforce local fire ordinances. They are equipped and prepared to answer individual questions regarding open burning."

Householders will not be restricted on open fires for backyard barbecues and recreational purposes, except that they must conform to present local fire regulations. Rubbish disposal at 1- or 2-family dwellings is limited to the hours of 6 a.m. and sunset by the District Regulation, and are subject to additional limitations and permits from the local fire departments.

Korean Student Guest of Rotary

At next Tuesday's Rotary luncheon Al Hackim, past club president and past district governor, will have as his guest and speaker of the day, a young Korean student from the University of California. Brought to this country through the interest of Dr. Barrows of the U. C. Extension Division who met and interviewed him during a tour of the Orient some two years ago and helped by contributions from Oakland and Berkeley Rotary clubs, Korean Army Lieutenant Pyong Hoon Kim has proven to be a model student in every way, and has maintained a straight "A" average in his courses.

The visitor, who is an honorary member of the Oakland Rotary Club, will be interviewed by Hackim on conditions in his home country, and its prospects for a peaceful future. The luncheon, as usual, will be held at Spenger's restaurant. President Dick Thomssen will preside.

Rotary Dedicated To International Understanding

Rotary Clubs in 102 countries throughout the free world are not only dedicated to a program of community and club service but are united in an endeavor to promote international understanding, good will and peace. That was the message of Edward B. Roessler, of Davis, Governor of District 516 of Rotary International in his address to the Rotary Club of Albany last Tuesday. He also conferred with local Rotary officers and committee chairmen regarding administration and service activities.

In addition to the efforts of Rotary's 9,500 Clubs in promoting understanding and service within their own communities, Mr. Roessler explained that Rotary International has spent in recent years more than \$2,500,000 through its program of student fellowships, which enables outstanding college graduates, as Rotary ambassadors of good will, to study for one year in countries other than their own. Since 1947, when the program was established, 957 Rotary fellowships have been awarded to students in 61 countries for study in 42 countries, with grants averaging \$2,500. Under this program each Rotary district selects every other year a student for such a fellowship. This year District 516 will nominate a recipient. Efforts will be made this year to increase Club participation in the programs in the hope that soon the number of scholarships may be doubled.

"In addition to the promotion of international understanding," Mr. Roessler continued, "special emphasis is being placed by Rotary Clubs in this District, which includes 51 clubs in Northern California, on more individual member participation in the Rotary program. Its effectiveness and its strength are the direct reflection of the application of the ideal of service by individual Rotarians in their daily lives. Without the spirit of unselfish service there could be no Rotary fellowship anywhere. Rotary is effective when men stand side by side, each doing his share of the work which needs to be done, be it club service, community service, vocational service, or international service."

Mr. Roessler urged local Rotarians to attend the District Conference to be held in Dunsmuir next May, and to make plans for the Rotary Club to be represented at the 49th Annual Convention of Rotary International, which will be held in Dallas, Texas, in June of next year.

CITY DUMP TO REOPEN WITH FEE SYSTEM

The Albany city dump was ordered reopened to citizens of Albany only, on a restricted basis, by the city council at its regular meeting on Monday night.

The open time will be for Saturdays and Sundays, from 8:30 a.m. to 3:30 p.m. An attendant will be on duty to check cars and to collect fees for dumping which have been tentatively set at 50 cents per car and \$1 per car trailer. This fee will be charged for rubbish dumping. Dirt, rock or broken concrete material unmix with debris will be accepted free. The pay rubbish will be dumped in a restricted spot for pickup by trucks from the Oakland Scavenger Company under contract. There will be no burning.

The above plan was adopted unanimously by the council after a long discussion over alternative plans, and questioning of officials of the scavenger company who were present.

The council agreed that the plan adopted was worthy of being tried out, but that the Air Pollution Board would be petitioned for an extension of six months in the burning ban to enable the city to study other plans and to negotiate with the City of Berkeley on a possible deal whereby Albany might join with Berkeley in construction of a bulkhead to permit fill and cover dumping.

The city attorney was also instructed to draw up an agreement with the Oakland Scavenger Company covering an extension of the present contract for garbage pickup, and to provide in addition fees for rubbish pickups week from private homes.

Meanwhile the City of San Francisco burning ban is under a temporary court ruling which holds up enforcement of the ban until at least Oct. 9, following an injunction petition filed by the Salvage Association.

'Today's Youth' Vista Theme For This Year

"Today's Youth - Tomorrow's America" will be the theme of Vista P.T.A. programs scheduled throughout the new school year.

According to Mrs. Thomas Beckhusen, program chairman for the Albany unit, topics for 1957-58 have been chosen with special emphasis on stabilizing home influence, and will run the gamut from a lively "spaghetti feed" and variety show in October to a solving report on juvenile problems, a local police officer, to be heard in January.

Midway between these two extremes will be such thought-provoking topics as "The Heart and the Home," "Education Today," "Is There Beauty in Your Home?" and a comparison drawn by foreign exchange students between American homes and those abroad. Assisting Mrs. Beckhusen in the planning of this year's program were Mrs. George Ferreira, Vista P.T.A. president, William Woolworth, Vista principal, Mrs. Warda Sauters, Miss Ann Reeves, and Burt Harris, all teachers, as well as Mesdames Michael Bunciel, Joseph Edvalson and John Longman.

PTA Chairmen Attend School

240 P.T.A. officers and chairmen from Albany and Berkeley recently attended the School of Information given by the Albany-Berkeley Council of P.T.A. at the Trinity Methodist Church, Berkeley.

Following the school a luncheon was held at Spenger's Fish Grotto which was attended by 192 persons. Guests of the council present at the luncheon included: Mrs. Aden Cox, president Albany-Berkeley Council of P.T.A.; Kenneth Forry, superintendent of Albany Schools; Robert Dennis, assistant superintendent of Albany Schools and principal of adult education for Albany Schools; William Woolworth, director of instruction of Albany Schools and principal of Vista and MacGregor Schools, and Miss Norma Carr, Albany school nurse.

Board of Directors	
East Bay Municipal Utility District, Oakland, California	
We have examined the balance sheets of the EAST BAY MUNICIPAL UTILITY DISTRICT'S WATER SYSTEM and SPECIAL DISTRICT NO. 1, as of June 30, 1957, and the related statements of revenues, expenses and contributions for the fiscal year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests as the accounting records and such other auditing procedures as we considered necessary in the circumstances.	
In our opinion, the accompanying financial statements present fairly the respective financial positions of the East Bay Municipal Utility District's Water System, and Special District No. 1, at June 30, 1957, and the results of their operations for the fiscal year then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

PROCLAMATION
WHEREAS, the Nation will observe "National Employ the Physically Handicapped Week" from October 6 through 12, 1957, and
WHEREAS, employers who accept the idea "It's Good Business to Hire the Handicapped" have grown in number during the thirteen years since the passage of the Public Law which set the first full week of October as the occasion for this observance, until they have become the teachers of this philosophy, and

NOW, THEREFORE, I, Lewis M. Howell, Mayor of the City of Albany, do proclaim October 6 through 12, 1957, as "Employ the Physically Handicapped Week" in the City of Albany and urge all employers to recognize that "Ability Counts Most" when workers are hired as we need the abilities of our physically handicapped workers.

CHRISTIAN SCIENCE
The ever-present power of the Christ, Truth, to heal sickness and to destroy discord will be brought out at Christian Science services Sunday, a 533 San Pablo in Albany.
Scriptural selections in the Lesson-Sermon on "Unreality" will include the following from Luke (13:11-13): "And, behold, there was a woman which had a spirit of infirmity eighteen years, and was bowed together, and could in no wise lift up herself. And when Jesus saw her, he called her to him, and said unto her, Woman, thou art loosed from thine infirmity. And he laid his hands on her; and immediately she was made straight and glorified God."
Correlative passages to be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy include the following (142:31): "Truth is God's remedy for error of every kind, and Truth destroys only what is untrue. Hence the fact that, today, as yesterday, Christ casts out evils and heals the sick."

Most valuable player
offers valuable advice
about Savings Bonds!

Mickey Mantle's big bat won him the American League's Triple Batting Crown last year and unanimous choice by the nation's sports writers as his league's most valuable player. This young Oklahoman figures to have many more great years in the majors, but already he's looking beyond his playing days, planning for his family's future with regular savings.
Mickey says, "From personal experience, I know that the guy who comes through regularly means the most to himself and his team. I've learned the same lesson about savings. Buying U. S. Bonds regularly helps win the game of security."

"Millions of sports fans can be star players in the game of security by joining and staying on Payroll Savings where they work."
Good advice for the long haul from a long ball hitter.
For most of us, Payroll Savings offer the easiest, surest way to save. And the time to start is now. All you do is sign the application form in the payroll office where you work. Select the amount to be set aside for your Bonds each payday. Then your saving is done for you. And each time you've accumulated enough, a Bond is purchased in your name.

You keep adding to your Bonds through Payroll Savings and your Bonds keep earning interest for you. It's a sure way to make a little deduction add up to a lot of security.
So don't put off saving another day. Sign up for Payroll Savings where you work—today. Or start buying Bonds regularly where you bank.

OUR TOWN IS STRONGER ECONOMICALLY BECAUSE OF U.S. SAVINGS BONDS

Take a look around our town! Don't you see all the signs of a strong economy? How about that mechanic down the street who just opened his own garage, the neighbor who's sending his son through medical school? How about all those homes that are being started and those bright new cars that are parked in front of our town's bustling stores? Things look pretty healthy, don't they?

Do you ever stop to wonder how much of this prosperity was made possible by U. S. Savings Bonds? Not just because they helped our country through an emergency either. Although that's part of it.

An even more encouraging fact is that all over America more people are saving more money, purposefully, than ever before in the history of the world. Today, more than

40,000,000 Americans own more than \$41,000,000,000 of cash savings—in U. S. Savings Bonds! They're one of the world's safest, surest investments. Your Government guarantees the principal of U. S. Series E Savings Bonds—up to any amount—and the rate of interest you receive.

Payroll Savings is the easiest way to save!

One of the reasons so many people are reaching their savings goals with Bonds is the Payroll Savings Plan. It's a sure-fire way to steady savings because the money is saved for you—automatically.

You just sign the authorization card in the payroll department where you work. Sign up for any amount you wish—a couple of dollars a payday or as much as you can spare. And when enough has accumulated, it's automatically invested in a Series E Savings Bond in your name and the Bond is turned over to you.

Then your savings really go to work—building up a backlog of security for you and your family. And adding to the economic well-being of our town and our country! If you haven't already signed up for the Payroll Savings Plan, why not do it today?

U. S. SAVINGS BONDS STRENGTHEN THE SECURITY OF YOUR FAMILY, YOUR COMMUNITY, YOUR COUNTRY

Colored Lights Displayed Tonight

The dancing waters and colored lights of the Hassler Memorial Fountain in the City Hall Plaza at 14th Street between San Pablo and Washington will be the "stars" of a camera night presented by the Oakland Park Department on Friday, Oct. 4. Instead of constantly changing as they do in the regular displays, the various patterns of color and water will be maintained for five minute periods throughout the evening in order to provide fixed subjects for those interested in night photography. The scheduled program will begin at 7:30 and last until 10:30, after which patterns requested by the camera fans will be featured.
